

ENVIS

Are you looking for subject based information on the environment?

Visit our site at: <http://www.envis.nic.in>

The Environmental Information System (ENVIS) is a decentralised system of nationwide network of distributed subject-specific centres integrated to collect, collate, store, retrieve and disseminate information on ENVIRONMENT. The centres have been set up in the areas of pollution control, toxic chemicals, ecology and ecosystems, environmentally sound and appropriate technologies, bio-degradation of wastes, environment management, etc.

ENVIS in the Ministry of Environment and Forests serves as the focal point for 76 ENVIS CENTRES established at acclaimed organisations, institutions and universities working in diverse areas of environment and concerned Government departments.

The focal point and centres responds to queries by e-mails and post free of cost. The dedicated ENVIS website at URL: <http://www.envis.nic.in> also provides a direct link to organisations housing centres.
